

Stress, Injury, & Toxins lead to subluxation!

Are you suffering from
Depression, Anxiety, Addictions,
Allergies or Infertility?

We Can Help!

Testimonial

I was on paxel and Remon daily for ADHD and other behavioral problems. After two weeks of adjustments I have not taken any medication and my grades have went from F's to A's and my concentration levels are doing great along with my behavior. I am still on corrective care and am getting better everyday. Thank you Dr. Wade for your prayers and awesome adjustments.

LifeForce Family Chiropractic - spreading the message of Christianity and Chiropractic

Dr. Wade A. Lofton, owner and Doctor of Chiropractic at LifeForce Family Chiropractic of Savage, shares his health care services and his faith with many people who travel hours to receive his services. Dr. Lofton gives the credit to God and his personal savior Jesus Christ for the amazing miracles that he sees in his office every week. LifeForce Family Chiropractic is a Christ-centered doctor's office that implements health and healing from the most Scientific and Biblical standpoints.

Dr. Lofton prays for all of his patients, silently and out loud, he says. "We have seen numerous healings in the past eight months of being open and we have numerous testimonials of people going off their drugs and regaining their health back through prayer and chiropractic adjustments." In addition to the devotion to Christianity, LifeForce Family Chiropractic also specializes in the Torque Release Technique, a technique designed to help people with depression, anxiety, addictions, infertility in women and emotional well being. The technique has an amazing success record that has been noted by the many historic firsts that have occurred over the past ten years. One of the many historic firsts was the scientific model to support the subluxation for state of well being and human potential, which was published in a mainstream peer review medical journal. The treatments can be performed on patients of all ages. Many patients are children and in a majority of cases, whole families come in together.

LifeForce Family Chiropractic is a neurology based chiropractic center. "If you can change the function of the brain, you can change the function of the body," Dr. Lofton said. His practice is very unique. Less than 5 % of the doctors in the U.S. do what he does.

LifeForce Family Chiropractic has customers who travel two to six hours round trip on a regular basis to receive their health care services and prayer. Many of those will offer testimonials to the miracle healings that have occurred in their health and well being. The Torque Release Technique has a proven history of achieving greatly improved patient outcomes. The gentle technique of Torque Release Technique combines the best of existing and new revolutionary scientific principles. LifeForce Family Chiropractic offers the Insight Millennium, state of the art technology, detecting and pinpointing abnormal neurological patterns and function in the brain and spinal cord that cannot be seen on an X-ray. The treatment is very unique and very effective, Dr. Lofton said. Many of his patients used to be on multiple drugs for depression or anxiety, and now, every person who's gone through the corrective care plan has gotten off the anti-depressants.

Of the many patients who were or are taking high blood pressure medicine, only three are still on that medication, he said. Scientific studies done in the past decade have proven the breakthrough that the torque release treatment has produced.

The methods also are very successful for those addicted to drugs. While the national average for traditional treatment programs is that only about 30% of the patients will make it through and complete the program, one study on TRT showed a retention rate of 100% in all addicts that received Torque Release adjustments 3x a week for 4 weeks.

There are many other things that set LifeForce Family Chiropractic apart from other Doctor's of Chiropractic:

We believe that God is our healer and giver of health.

We believe that our body is the temple of God and we are to honor our body while we exist on this earth.

We serve everyone regardless of his or her faith, belief and worldly status.

We are a team filled full of faith, hope and love.

We are willing to lay our hands on every one of our patients and pray for them.

We teach people the word of God, where health comes from and we empower them to instill it into their lives.

We focus on the underlying cause of your problem, not the symptom.

We offer affordable individual and family financial plans and turn no one away due to financial obligations.

LifeForce Family Chiropractic has been in operation for eight months and is located at 8734 W. County Rd. 42, Savage. The office employs two Doctors of Chiropractic, three Chiropractic Assistants, one Insurance Coordinator, and one Massage Therapist. While Dr. Lofton notes that there are many scientific studies to validate the successes at LifeForce Family Chiropractic, he knows where the credit should go:

"I give all the glory of health and healing to God.

Call 952-746-4404 for more information on how you may be able to regain your health and function at 100% while renewing your mind and body.

Testimonials

My name is TJ I am 9 years old and I was diagnosed with asthma and allergies at age 2. I was on two asthma medications and seeing another Doctor of Chiropractic who does traditional chiropractic and in Oct. 2005 my family was referred to Dr. Wade and in 1 month I was off all of my medication. I AM MEDICATION FREE! I thank Dr. Wade that I feel better.

T.J. Schaff 1/3/06

I came looking for a massage and ended up coming in for Chiropractic care with Dr. Wade. After 15+ years of anti-inflammatories for chronic osteoarthritis, pain and anti-depressants for menopausal depression, I can say I'm glad I stopped in! I am now off all my prescription drugs and feeling good. With lots of prayers and adjustments Dr. Wade has helped me. I'm looking forward to even more healing and I know there are better times ahead for me. I thank God everyday for his healing and giving me the courage to do this. I also want to thank everyone at LifeForce Family Chiropractic for their kindness, love and support. Thank you Dr. Wade - you are truly a blessing.

Nancy Hawkins 2/12/06

After chiropractic adjustments by Dr. Wade and changing my diet along with amazing prayer and healing from God my acid reflux and digestive problems are under control. I was vomiting for 5 years because my food wouldn't pass through my esophagus into my stomach and I was scheduled for surgery on my esophagus and Dr. Wade layed hands on me and prayed for me and adjusted the nerves that go to my esophagus and stomach and in Three adjustments and prayers I was literally healed and able to eat without vomiting or choking on my food. I continue to get adjusted on a wellness basis and I believe that chiropractic adjustments, diet, exercise, and the word of God will bring health and healing to anyone. I have greatly improved and am thankful.
