LifeForce Family

Chiropractic

Celebrating 5 years

OF LIFE-CHANGING RESULTS THROUGH CHRISTIANITY AND CHIROPRACTIC

For the last five years Dr. Wade Lofton and the staff at LifeForce Family Chiropractic in Savage have been changing lives through Christianity and Chiropractic.

Come help us celebrate our 5th anniversary Aug. 28 from 11 a.m. to 5 p.m. with live music from national Christian artists, food, inflatables, tours, prizes and a variety of healthcare clinics. Dr. Lofton and the staff of LFFC are eager to show people the changes they have seen in the lives of sick people who travel from across the U.S. to visit LFFC, which is right in your backyard.

“That’s what we do: We get results. We transform people physically and spiritually.”

In August 2006, Dr Lofton and his team at LFFC partnered with Research and Clinical Sciences to become 1 of 220 facilities or clinics in the world with an IRB Approved Research status that was documenting and publishing the amazing changes in quality of life through chiropractic care.

THE VISION

During and following his graduation from Doctorate School, Dr. Lofton traveled the country shadowing and learning from many well-known doctors, mentors and figures in the chiropractic profession. He spent a year visualizing, studying, perfecting and praying for God to show him direction as to the details of the practice he was called to build.

In March 2007, Dr. Lofton became Federally Certified in Auriculo-Therapy by the American College of Addictions and Compulsive Disorders. He also received an Advanced Proficiency rating and certification in Torque Release Technique.

“Looking back over the last five years it is amazing how God has brought people from all over the United States to see us,” Dr. Lofton said.

Then one morning as Dr. Lofton was studying the Bible, he ran across Mark 16:15, which states: “Go ye into the World and tell the good news to everyone.” Dr. Lofton remembers jumping out of bed and asking his wife if he should become a pastor and teacher to fulfill that Bible verse.

Dr. Lofton is passionate about Christianity and Chiropractic, which he believes are the two best-kept secrets that produce life-changing results. His mission from day one has been to serve, educate and empower people today to change the world tomorrow.

His wife politely told him he should work to get out of debt before diving back into school. Dr. Lofton agreed and continued reading the Bible when he came upon Mark 16:18, which reads: “Those who believe shall lay hands upon the sick and they shall recover.”

“I believe in life-changing choices,” Dr. Lofton said. “Act now, or lose later in life.”

Dr. Lofton also believes you can teach an old dog new tricks.

That was the beginning of a vision that is attempting to bring Christ to the forefront in healthcare through LifeForce Family Chiropractic – a faith-based healthcare facility that teaches and preaches the good news to everyone (Mark 16:15) and lays hands on the sick with the belief that they will recover (Mark 16:18).

The human body is the most amazing, self-healing organism on the planet, he said. So why would you resort to medications that simply mask symptoms?

Every cell in your body is controlled by the central nervous system. Interference along that communication pathway creates problems, he explains. You may or may not experience symptoms, but make no mistake your health is being compromised day after day.

In July 2005, Dr. Lofton went out in faith and built a brand new building and named it LifeForce Family Chiropractic PA – the first of many faith-based healthcare facilities to come. Dr. Wade remembers his first patient who drove about three hours and more than 160 miles one way for treatment from Spirit Lake, Iowa to Savage – after no other doctors could help her.

The neuroscience field has made incredible progress in the last 10 years – discovering that by utilizing neurological-based adjustment techniques to find and remove interference in the nervous system, will empower your body to heal itself and stay healthy, allowing it to regenerate rather than degenerate.

Today, less than 5 percent of the world’s chiropractors understand and practice this cutting-edge model of care. You’re lucky to live near one, so why aren’t you coming to see us?

After receiving neurological-based adjustments at LFFC, the woman’s health improved dramatically.

“We are different at LifeForce Family Chiropractic, and proud of it,” Dr. Lofton said. “Come to our 5th anniversary party Aug. 28, or stop in anytime, and see how we are changing lives every day.”

“From there we built a level of faith and expectation that people will come from all over the world for results,” Dr. Lofton

TESTIMONIAL

Jennifer of Prior Lake had been suffering from severe neck and back pain, sciatica, irregular menstrual cycles (along with pain), and severe constant bladder infections for years. She had been to several medical doctors, chiropractors, massage therapists, and the Institute for Athletic Medicine in Burnsville – but never got any results.

“I was told I would never be rid of my pain or any of my symptoms, and probably never run again, but I may see some improvement,” Jennifer said.

Jennifer developed a medical condition called Middleschmirtz and started searching out a Christian-based chiropractor who knew how to get to the cause of her current problems, this is when she came across LFFC and started to receive neurological based care in March.

“I have had a significant relief in pain and all of my symptoms, with no bladder infections, sciatica, ankle pain, and abnormal menstrual cycles,” she said. “I now have a much better feeling of well-being, and confidence that I will be healed of all these things that I was told I would live

with for the rest of my life, including not being able to run, which I do almost every morning.”

Jennifer also developed an inner ear infection and plugged feeling, which she was prescribed meds from a doctor and it came back again and again. Upon coming to LFFC she received one neurological based adjustment, the inner ear infection and plugged feeling was gone in hours, she said.

But that’s not all the change Jennifer and her family has seen at LFFC. In just six visits, her son, Sam, was cured of his stuttering that plagued him for the last 10 years of his life. His severe back pain has also been relieved. Sam was diagnosed with ADHD and several learning disabilities. Since coming to LFFC for neurological based care, his focus has improved and he has the ability to remain calm.

Both Jennifer and Dr. Lofton have commented that he is just a different kid, what can we say... “His anger has subsided and he is a happy kid,” Jennifer said. “It’s a dramatic change for him and our family.”
